

Role Profile

Job Title: Multi-skilled Maintenance Technician - Carbury
Department: Maintenance
Ref: Ref-280, V1 – 19 October 2023

Role Overview

Multi-skilled Maintenance Technician required for the maintenance of all Farm and Compost equipment. This role will suit a self-motivated individual who has a core competence as a multi-skilled technician with a qualification in electrical maintenance.

Main duties as follows:

- Maintain health, safety and hygiene standards as a number one priority in accordance with company rules and regulations
- Ensure that all equipment preventative maintenance is carried out both efficiently and safely
- Troubleshooting and repairs to agricultural equipment, HVAC, incl HVAC pumps and VSD's, compost production equipment, chiller equipment and hydraulic winch systems
- Work off your own initiative when a fault is detected and decide on action, based on your best judgment on whether to effect immediate repair or not
- Maintain accurate, up-to-date maintenance documentation, following good documentation practices and keep maintenance/Site management updated on maintenance progress
- To keep clean any areas in which you are working, including any transit areas to and from the workshop, including the workshop and stores
- Maintain preventative maintenance records including changes, stores transactions made and work carried out
- To oversee and assist if required, with any third-party contractors in carrying out their duties on our site as and when required
- Being part of a callout service at weekends, if required, and form part of a rotating shift pattern
- Co-operate and participate fully in training and development in cross-skilling and other job-related competencies

This is not an exhaustive list and is subject to change and amendment.

Competencies to perform the role

- Strong troubleshooting/problem solving skills
- Self-motivated with the ability to work in a team
- Good communication skills verbal and written with particular emphasis towards English
- A high level of technical ability
- Computer literacy including knowledge of basic Microsoft packages
- Works well in a fast paced environment
- Flexibility in relation to working hours

Education / Work Experience:

- Excellent knowledge of electrical and mechanical systems inclusive of 240v AC and 24v DC, hydraulics, pneumatics and chain / belt drives
- Competence in working with agricultural equipment
- Ideally apprentice trained and qualified multi-skilled technician with minimum 2 years experience in a similar role
- Working knowledge of agricultural equipment, HVAC, incl HVAC pumps and VSD's, compost production equipment, chiller equipment and hydraulic winch systems
- Full driving licence

Performing the role in line with the Monaghan Cultural Values:

1. We do the right thing: We use this philosophy to drive every aspect of our business, from product, to process to people
2. Forward Thinking: We think ahead and we think for the long term
3. Down to Earth: We understand the importance of communicating our discoveries in a straightforward way
4. Inspiring: We seek out new ways to excite and inspire each other
5. Egalitarian: We have always been grounded in the belief that everyone is equal. That everyone deserves an equal chance to speak, be heard and make an impact
